# Why FlexTPA?

If your group clients demand tailor-made plans, new ways of interacting with insurance providers and plan members, online access to their data from anywhere, anytime -and if your business expects cost effectiveness, operational excellence and advanced capabilities to drive profits, it is time to explore FlexTPA.

This web-based platform with its innovative and impactful new functionality, optimized new architecture along with a number of advanced built-in processes – it is made to help solve your daily group administration challenges and take the TPA's business into greater and more significant efficiencies and capabilities.

## 1) FlexTPA will give you a TOTAL solution
You will have one tool that will allow you to service most of your clients group administration needs –new enrolments, life event change, billing, electronic statements, notifications, carrier integration and intelligent reporting.

## 2) FlexTPA will SIMPLIFY complex benefits administration
Whether you're working with a prospect or existing client, managing multi-product plans, life-change events or completing a renewal, FlexTPA will simplify these multi-step processes with built-in workflow efficiencies.

## 3) FlexTPA gives you a BRANDED online presence
A role-based web-based solution can integrate with your clients and streamline enrollment and benefits management process for employer groups. It will facilitate controlled + authorized online access to your group clients and plan members

## 4) FlexTPA will allow you to stay on TOP
You can track business profitability, online billing statements, track your client's correspondence and engage clients with automated status notifications and communications
